Help Individuals & Families **THRIVE.**

Just some of the millions of Americans LifeExec serves

No Insurance Coverage

120 million Americans without access to affordable healthcare. Nothing is the wrong answer.

High Deductibles

Deductibles can range from \$5000 - \$20000 with limited access to care. These insured cannot get care until they've paid thousands for care.

Healthy & Save Money

Millions of people are healthy and never use healthcare services. They are fatigued of paying thousands for benefits they never use.

Reduce Bills and Debt

Americans are in debt. Hundreds or thousands of dollars a month in savings can help tremendously.

Travel or Geographic

Traditional insurance networks have geographic limits. LifeExec programs are nationwide.

26-30 Years Old

40 million Americans are living without being on their parent's or their own insurance.

LifeExec Wellness programs mix direct primary care with targeted limited insurance programs. LifeExec Wellness programs are not full major medical insurance.

Cover 98% of Healthcare Needs.

We Check the Boxes

At LifeExec, our programs are specifically designed to fit real-life situations. We understand that healthcare needs vary from person to person, so we create strategic healthcare plans by analyzing the 1 billion annual visits to medical facilities.

Our goal is to optimize your healthcare plan to include exactly what you need and eliminate unnecessary services. We believe you shouldn't have to pay thousands of dollars for services you'll never use.

With LifeExec, you can have peace of mind knowing that your healthcare plan is personalized to meet your specific needs. Say goodbye to one-size-fits-all plans and say hello to a customized healthcare solution that works for you.
